Kings Pride soft leaf buffalo grass

# A Royal welcome for Kings Pride

Live a King's life.

Imagine a totally new Australian soft leaf buffalo grass that is greener for longer, softer than ever, yet even more hard-wearing. A grass that looks better, performs better and allows you more time to enjoy your lawn and your life.

**Kings Pride** is redefining what makes a good lawn truly great.

National trials\* have demonstrated that **Kings Pride** delivers a softer, greener, harder-wearing lawn all year round, whilst saving on time and effort on maintenance. And whats more, it was first discovered growing wild what better proof could there be of its natural ability to thrive in Australias testing climate?

\*A National Trial study has been conducted with the Department of Primary Industries, involving blind testing 14 varieties of buffalo grass at sites across Australia. For the last three years, **Kings Pride** has consistently been rated in terms of performance in the top group and is quite frequently number 1.

*Heirs to the throne*

*A royal banquet*

# Roll out the green carpet

Superior look and covering including low thatching

Colour in the heat of summer

Colour in the middle of a mild winter

Shade tolerant
